

Year One

What is a map?

Children will learn different mapping skills such as aerial views, map symbols and compass points. They will build knowledge of place and location, in particular the UK.

Our local area

Children will compare and contrast their own locality with examples of urban and rural around the world.

Year Two

Town and country

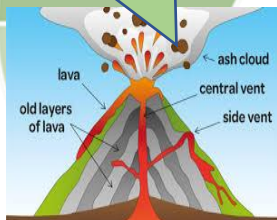

Through this topic, children will develop their understanding of human and physical features. They will study different types of settlements and use geographical vocabulary to describe location.

Extreme Earth

Extreme Earth will explore the structure of the Earth, studying mountains, volcanoes and earthquakes.

Year Four

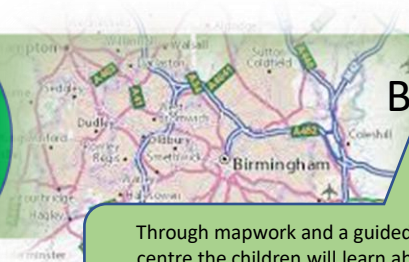

Antarctica

Children will study the coldest continent on Earth. They will further develop their knowledge of human and physical features and learn about the distinctive ecosystems.

Birmingham

Through mapwork and a guided tour of the city centre the children will learn about human and physical features and how urban environments change to meet the changing needs of communities.

Children will learn about different ecosystems with a focus on rainforests. They will gain an appreciation of the environmental importance of rainforests and the threats they face.

Brazil

Year Three

Seas and oceans

Children will learn about environmental issues and locational knowledge of the World's major oceans/seas.

Year Five

Biomes

Biomes are large regions of the world with similar climates, plants and animals. In Year 5, pupils explore how these environments differ from deserts to rainforests. The unit helps them understand how living things adapt to their habitats and why protecting these ecosystems matters.

Climate change

Climate change and its impact on the environment will be explored. Children will about the changing environment causes problems for farming, low-lying countries, ecosystems and human health.

Year Six

Migration

Children will gain an understanding of the different reasons for human migration and how this impacts on individuals, communities and countries.
