

Curriculum Cornerstones

Basic Skills

We are committed to developing our pupils' transferable skills through high-quality reading, writing and mathematics, enabling them to access and succeed within a knowledge-rich curriculum.

Our aim is to empower every pupil to engage fully in their learning, make strong progress and be well prepared for the next stage of their education. We strive to develop confident and informed decision-makers, equip children with the knowledge, skills and attitudes needed to participate successfully in modern society, foster a lifelong love of learning, and prepare them for future employment and opportunities.

Personal Development

We nurture our pupils to acquire the knowledge, understanding and skills they need to manage their lives effectively, both now and in the future.

Personal Development is embedded within our whole-school approach and underpins all aspects of learning, making a significant contribution to pupils' overall educational experience. Through a carefully planned programme, we support pupils' personal, social, emotional and moral development, equipping them with the skills, qualities and values needed to thrive as individuals, family members and responsible citizens.

Grounded in British Values, our Personal Development curriculum prepares pupils to engage positively with the diverse and ever-changing world around them. It enables them to develop resilience, confidence, self-awareness and respect for others, whilst equipping them to navigate future opportunities and challenges. Through responsible decision-making and active participation in society, we empower our pupils to lead safe, healthy and fulfilling lives.

Enrichment Experiences – social and cultural capital

We provide opportunities for new learning and diverse experiences that develop character, resilience and aspiration.

Within the classroom, enrichment deepens pupils' understanding of the curriculum, broadens perspectives and promotes meaningful engagement with learning. Beyond the classroom, enrichment offers a wide range of experiences that enhance enjoyment, foster curiosity and contribute to a culturally rich curriculum.

Through these opportunities, pupils develop essential interpersonal skills, including teamwork, confidence, independence and leadership. They gain a deeper appreciation of culture, diversity and their role within the community, whilst broadening their horizons and ambitions.

Our aim is to inspire pupils to develop high aspirations, embrace challenge and strive for excellence. By equipping them with the knowledge, skills and experiences needed to succeed, we empower them to become confident, resilient individuals who are prepared to thrive in an ever-changing world.

Golden Threads

Safeguarding - Protecting the health, wellbeing, and human rights of our children so they can grow and develop emotionally, socially, and academically, in a safe and effective learning environment.

Equality and Diversity – Including everyone while providing everyone with a space to celebrate their identity and be proud of who they are; using this effectively to become representatives of change.

Morals and Values – Our British Values are our values, and our school rules are to be **Ready, Respectful** and **Safe**. We aim for our children to be **ready** to learn, **respectful** to all those around and **safe** in the learning environment. These bond the children in a spirit of community, self-discipline, and citizenship.
