

Year One

Locational and place knowledge

Children will learn about how climates and the environment impacts on home design and construction. They will also develop their world locational and place knowledge and mapping skills.

Let's Go on Safari

Children will compare and contrast their own locality with examples of urban and rural localities in Kenya.

Year Two

United Kingdom

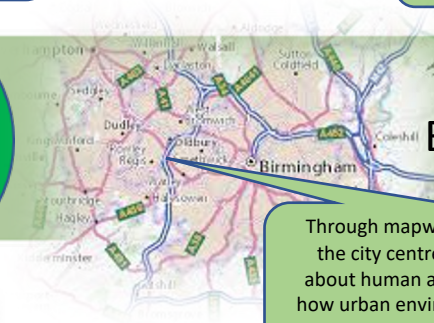

Through the topics of Fire and Plague and Dinosaurs children will learn about the United Kingdom, to include places, locations and key features.

Extreme Earth

Year Four

Year Four

Birmingham

Through mapwork and a guided tour of the city centre the children will learn about human and physical features and how urban environments change to meet the changing needs of communities.

Amazonian Rainforest

Children will learn about different ecosystems with a focus on rainforests. They will gain an appreciation of the environmental importance of rainforests and the threats they face.

Year Three

Under the Sea

Children will learn about human and physical features, environmental issues and locational knowledge of the World's major oceans/seas.

Extreme Earth will focus on the continent of Antarctica, its landscape, climate and its ecological importance in the future sustainability of the Earth. It will also cover other naturally occurring events such as volcanoes...

Year Five

World Exploration

Children will learn how our understanding of the world has changed over time. They will learn more about globalisation and trade and increase their knowledge of the diversity of the world in which they live. This will be done through a focus on Tudor exploration.

Landscape & Settlement

Through mapwork investigation, children will increase their knowledge and understanding of Europe as a continent and how world events, such as war, can change the political landscape.

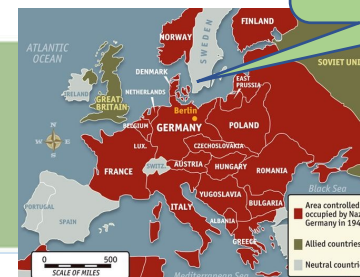

Through the study of Ancient Greece they will learn about how landscape often determines where and why settlements are located

Children will gain an understanding of the different reasons for human migration and how this impacts on individuals, communities and countries.

Human Migration

Europe and Political Change

Year Six
