

## Year 6 Design and Technology

### Autumn Term Newsletter

Topic: WW2 (Textiles)

Year 6 have been focusing on textiles in their design technology work this term. Year 6 learnt about the 'Make do and mend' scheme introduced by the government during WW2 where people were encouraged to mend, recycle and upcycle their clothing to make it last longer. They were given a design brief to design and make a small teddy bear using recycled materials. Year 6 have also learnt about sustainability and the negative effects of 'fast fashion' on the environment.
