What is an Educational Psychologist?

Educational Psychologists are professionals with higher degree level psychology training who work with Young People from birth to age 25. They are registered with the Health and Care Professions Council and have enhanced Disclosure and Barring Service clearance. They use psychology to find ways forward in schools and this helps them and others to understand how children develop and learn, as well as how they may think, feel and behave.

Special guests:

- Rachel Hunt (EP) will be available to answer questions and offer support and advice around Emotional Coaching and the different roles of emotions.

In addition, the coffee mornings always provides opportunities to:

- Meet with other parents and carers, especially of children with SEND
- Be signposted to organisations that can support
- Find out about different needs and experiences
- Share experiences
- Shape future meetings

There are 30 spaces, therefore, if you would like to attend, please sign up using the Arbor link.

Yours sincerely
