19th November 2023

Dear Parents/Guardians,

Computer Programming Club

We are offering children in year 4 the opportunity to join a Computer Programming Club every Tuesday from 3:30-4:30, beginning Tuesday 7th November 2023, to allow children to explore and develop their talents in areas outside the core subjects.

With more job opportunities becoming widely available within the STEM (science, technology, engineering, and mathematics) sectors, we feel it is important to offer children the opportunity to explore these in more depth during their time at our school.

During some of our sessions, your child will be using the program Scratch. This is an interactive website and app, and it is free to download to use at home too, allowing your children to continue their programming journey away from school.

If you would like your child to take part in this club, please complete the consent slip below and return this to school as soon as possible. This is an exciting opportunity to work in a smaller group and to develop and learn computing/coding-based skills.

Please note, club places are limited and if we receive more applications than places available we will allocate places on a random basis.

**** You will be notified if your child gets a place ****

Yours sincerely,
Mrs Rayment
Teaching Assistant

Computer Programming Club

I consent to my child attending the Computer Programming Club on a Tuesday from 3:30 – 4:30pm starting on Tuesday 7th November.
