Reading List

Dear Parents and Carers,

At school, we are passionate about helping every child develop a lifelong love of reading. To support this, we have put together a recommended reading list containing examples of high-quality books that are suitable for your child's age group. We have put together this reading list to give you examples of high-quality books to enjoy with your child at home.

We understand that books can be expensive. Please consider looking in charity shops, using the *used* option on Amazon, or visiting websites such as **World of Books** and **Vinted**. Your local library is also an excellent free resource.

Reading regularly with your child is one of the most effective ways to support their learning. It helps develop vocabulary, comprehension, imagination and confidence. Research from the National Literacy Trust shows that children and young people who enjoy reading have significantly higher average reading attainment than those who do not enjoy reading.

Even spending a few minutes each day sharing a book can make a real difference. Talking about stories, discussing new words and encouraging children to read for pleasure all help to build the strong literacy skills that support success across the curriculum.

Thank you for your continued support in promoting reading at home. Together, we can help children develop the skills and enthusiasm they need to become confident, lifelong readers.

Thank you for your continued support.

Kind Regards,

Miss Brenwald
