

Year 2 Autumn Term Newsletter

Art and Design.

Topic: Great Fire of London.

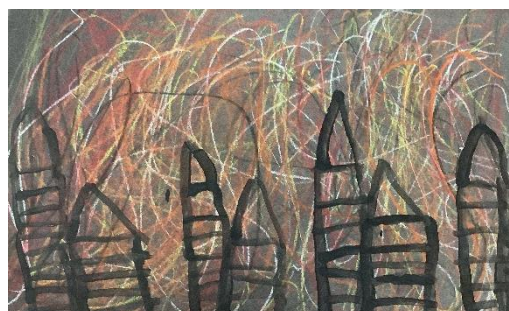

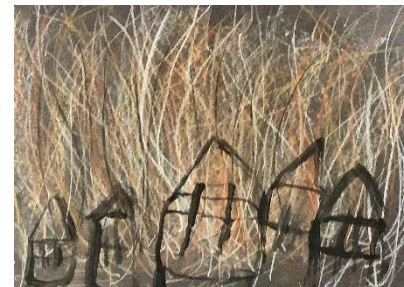

Year 2 have explored warm and cool colours. They have experimented with watercolours, poster paint, charcoal, collage and oil pastels in their sketchbooks to create the effects of fire and flames. They also experimented with pieces of cardboard to print the shape and structure of Tudor houses. Year 2 chose their favourite material and created a final piece of work based on the Great Fire of London.

Design and technology

Topic: Great Fire of London

Year 2 have been focusing on mechanisms in their design technology work this term with a specific focus on wheels and axles. Year 2 children worked together in pairs to create a fire engine using recycled materials. They attached the axles to the chassis of their fire engine and then attached the wheels.
