

Year 3 Autumn Term Newsletter

Art and Design.

Topic:

Year 3 have explored the work of French artist Henri Rousseau and his paintings inspired by the jungle. They developed their observational drawing skills by drawing different plants in the art room and used their sketchbooks to develop their colour mixing skills by mixing different tints and shades of green. Year 3 developed their printing skills by creating a multi layered print based on leaves and plants from the Amazonian rainforest.

Design and technology

Topic: Amazon Adventure.

Year 3 have been focusing on textiles in their design and technology work this term with a specific focus on joining fabric pieces together. They were given a design brief to design and make a pouch for a pair of binoculars for someone going on a birdwatching holiday to the Amazon Rainforest. Year 3 have shown lots of resilience in this project because they had to thread their own sewing needles and use overstitch to stitch their pouch together. They added a button fastening.
